PIERCE

By JOHN FOX

Continued from Our Last Issue

He paused, and, in spite of herself, her eyes flashed toward the door. Erskine saw it, drew himself erect, bowed and strode straight out. Nor did the irony of the situation so much as cross his mind—that he should be turned from his own home by the woman he loved and to whom he had given that home. Nor did he look back—also he might have seen her sink, sobbing to the floor.

XXI.

Up the James rode Erskine, hiding in the woods by day and slipping cautiously along the sandy road by night, circling about Tarleton's camp fires, or dashing at full speed past some careless sentinel.

On the third morning he came upon a ragged sentinel—an American. Ten minutes later he got his first glimpse of Lafayette, and then he was hailed joyfully by none other than Dave Yandell, Captain Dave Yandell, shorn of his woodsman's dress and panoplied in the trappings of war.

But late in August came the message that put Washington's great "soul in arms." Rochambeau had landed six thousand soldiers in Connecticut, and now Count de Grasse and a French fleet had sailed for the Chesapeake.

General Washington at once resorted to camouflage. He laid out camps ostentatiously opposite New York and in plain sight of the enemy. He made a feigned attack on their posts. Rochambeau moved south and reached the Delaware before the British grasped the Yankee trick.

Then it was too late. The windows of Philadelphia were filled with ladies waving handkerchiefs and crying bravos when the tattered Continentals, their clothes thick with dust but hats plumed with sprigs of green, marched through amid their torn battle flags and rumbling cannon.

Behind followed the French in "gay white uniforms faced with green," and martial music throbbed the air.

Down the Chesapeake they went in transports and were concentrated at Williamsburg before the close of September. Cornwallis had erected works, for he knew nothing of Washington and Count de Grasse, nor Mad Anthony and General Nelson, who were south of the James to prevent escape into North Carolina.

Then came de Grasse, who drove off the British fleet, and the mouth of the net was closed.

Cornwallis heard the cannon and sent Clinton to appeal for help, but the answer was Washington himself at the head of his army.

In mid-September the allies gathered, and with Washington's army came Colonel Dale, now a general, and young Captain Harry Dale, who had brought news from Philadelphia that was of great interest to Erskine Dale.

In that town Dane Grey had been a close intimate of Andre, and that intimacy had been the cause of much speculation since.

He had told Dave of his mother and Early Morn, and Dave had told him gravely that he must go get them after the campaign was over and bring them to the fort in Kentucky.

If Early Morn still refused to come, then he must bring his mother, and he reckoned grimly that no mouth would open in a word that could offend her.

In mid-September Washington came, and General Dale had but one chance to visit Barbara. Erskine's plea that he was too busy to go with them aroused Harry's suspicions, and he went bluntly to the point.

"You wouldn't go to Red Oaks and Barbara did not seem surprised. Is Dane Grey concerned?"

"Yes."

Harry looked searchingly at his cousin.

"I pray to God that I may soon meet him face to face."

"And I," said Erskine quietly, "pray to God that you do not—not until after I have met him first." And Harry, after a searching look at his cousin, turned away.

They marched next morning and at sunset of the second day they bivouacked within two miles of Yorktown and the siege began.

ERKINE DALE PIONEER by JOHN FOX

Continued from Our Last Issue

The allied line was a crescent, with each tip resting on the water—Lafayette commanding the Americans on the right, the French on the left under Rochambeau.

De Grasse, with his fleet, was in the bay to cut off approach by water. Washington himself put the match to the first gun, and the mutual cannonade of three or four days began. The scene was "sublime and stupendous."

Bombshells were seen "crossing each other's path in the air, and were visible in the form of a black ball by day, but in the night they appeared like a fiery meteor, with a blazing trail most beautifully brilliant."

It was nearly the middle of October that the two redoubts projecting beyond the British lines and enflanking the American intrenchments were taken by storm.

One redoubt was left to Lafayette and his Americans, the other to Baron de Viomenil, who claimed that his grenadiers were the men for the task in hand. Lafayette stoutly argued the superiority of his Americans, who, led by Hamilton, carried their redoubt first with the bayonet, and sent the Frenchman an offer of help.

The answer was: "I will be in mine in five minutes." And he was, Washington watching the attack anxiously.

"The work is done and well done," and then the surrender.

The day was the 19th of October. The victors were drawn up in two lines a mile long on the right and left of a road that ran through the autumn fields south of Yorktown. Washington stood at the head of his army on the right, Rochambeau at the head of the French on the left. Behind on both sides was a great crowd of people to watch the ceremony. Slowly out of Yorktown marched the British colors, cased drums beating a significant English air.

"The world turned topsy-turvy," Lord Cornwallis was sick. General O'Hara bore my lord's sword. As he approached, Washington saluted and pointed to General Lincoln, who had been treated with indignity at Charleston. O'Hara handed the sword to Lincoln. Lincoln at once handed it back and the surrender was over.

Between the lines the British marched on and stacked arms in a nearby field. Some of them threw their muskets on the ground, and a British colonel bit the hilt of his sword from rage.

As Tarleton's legion went by, three pairs of eyes watched eagerly for one face, but neither Harry nor Captain Dane Yandell saw Dane Grey—nor did Erskine Dale.

XXII.

To Harry and Dane, Dane Grey's absence was merely a mystery—to Erskine it brought treachery and sickening fear.

He started for Red Oaks and with every mile suspicion and fear grew. The distance to Williamsburg was soon covered, and skirting the town, he went swiftly for Red Oaks.

"Stop!" he cried suddenly, as a negro came thundering blindly on. Firely swerved aside, and Ephraim shot by, pulling in with both hands and shouting:

"Marse Erskine! Thank Gawd you're come!" When he wheeled he came back at a gallop—nor did he stop.

"Come on, Marse Erskine!" he cried.

"Come on, son!"

With a few leaps Firely was

BREAK UP IN EMPIRE REFLECTED BY IRISH FREE STATE ACTION

LONDON, Feb. 25.—The eyes of Great Britain are on Ireland, Ireland's success or failure as a free state may be a determining factor in the disintegration of British rule.

Lloyd George and British statesmen are beset on all sides with demands for greater freedom.

The creation of the Irish Free State has given impetus to demands, which, if granted, would threaten the strength of British rule in almost every quarter of the globe.

India, Britain's most wealthy Far East possession, is in the throes of a precipitant revolution with freedom as the objective, and the Indian problem is undoubtedly the knottiest problem Lloyd George has on his hands, with the exception of the final settlement of the Irish question and his domestic political difficulties.

Egypt, a protectorate of Great Britain, is demanding wider liberties, and the Egyptian question is one which is most vexatious, and it is whispered in political circles that this problem has threatened cabinet rifts.

North Scots Restive

Scotland has at times been mentioned as the source of a possible demand for greater independence, although there is at the present time no indication that the Scottish people will arouse themselves to any serious demands; nevertheless it is rumored that some of those who inhabit the northern half of the main British Isles are growing restive.

In the hand striking miners have voiced their desire for the creation of a free state.

The people of the little Isle of Sark have gone ahead and established a government of their own without consulting either Lloyd George or King George. The population of this tiny island is not extensive, but the spirit displayed there must be annoying to those statesmen who are striving for greater freedom.

"This," he said quietly, "Make no noise—and don't move." Grey was startled, but he caught his control instantly and without fear.

"You are my prisoner, Mr. Grey," said Erskine. "I could lead you to your proper place at the end of a rope, but I have in mind another fate for you. I tried once to stab you—I knew no better. You once tried to murder me in a duel and you did know better. Twice you have said that you would fight me with anything, any time, any place." Grey bowed slightly. "I shall ask you to make those words good and I shall accordingly choose the weapons."

Grey bowed again.

"Ephraim," said Erskine, "flip into the hall and bring me the two rapier on the wall."

DOPESTER SAYS HE'S SHIELDING NOTED ACTRESS

WILL "COME CLEAN" IF OFFICERS WILL PROMISE NOT TO HANG.

DETROIT, Feb. 25.—Pinned down by police who continued to question him over seeming conflicts between his story and the official records, Harry M. Fields, county prisoner, who confessed a hand in the murder of William D. Taylor, today admitted two of the alleged principal names he had given were fictitious.

"He refused to divulge anything further until given a written guarantee from Los Angeles that he would not be hanged for his part in the crime."

"I haven't told half of what I know," he declared. "And I won't clear up the main points until Prosecutor Woolwine promises not to hang me. I expect to do a prison sentence, but I don't want to hang."

Fields said one of the fictitious names he gave cloaked a famous screen actress.

While Fields was being questioned by police, the International News Service verified parts of his story by records in the San Francisco recorder's court.

He left Los Angeles February 2, going to Seattle, where he spent a day with his wife, Lillie, and their two children. He gave the address of his family, which is being investigated now.

Fields left Seattle and met Wong Lee, an associate in the crime, on the train he said. In order to dodge the Chinaman, he left the train at Kansas City, going to Buffalo, where he was arrested. He says the bank book which figured this week in his story, was mailed to him by Sam Caplin, who made the deposits in a Chicago bank for Fields, under Caplin's name.

Fields declared his motive for confessing was self-defense.

"I knew well enough one of us would spill it," he told police.

"I wanted to beat the others to it, knowing the one that confessed would stand the best to cheat the gallows. I have got plenty of facts to support what I say, but I don't intend to drop them until I know I won't be hanged for my part in the mess."

Detectives Hot on Trail

CHICAGO, Feb. 26.—Five Los Angeles detectives arrived here today and began immediate investigation of what is said to be a "hot tip" on the enigmatical murder of William Desmond Taylor.

After a short consultation with Chief Hughes of the local detective bureau, the detectives left the bureau by automobile without revealing their destination or plans.

Lieutenant Trent Anderson was in command of the squad, which included Sergeants H. D. Woodward, R. S. Hamilton, A. F. Powers and Ray C. Eberhardt.

Sergeant Hamilton said they "understood a man was in hiding here" who was seen about the Taylor bungalow several days before the movie director was slain. "He is not an actor, that is all I can say," was Hamilton's comment.

PLANS THAT CONGRESS REDUCE IN NUMBER OF MEN AND OFFICERS IN NAVY

WASHINGTON, Feb. 25.—The personal intervention of President Harding became necessary today to save the United States navy from some rather rough surgery at the hands of the economy-hunt congressmen.

The navy and the administration became seriously concerned over the talk that has been rife in Congress ever since the armament conference of cutting naval appropriations for the next year in half, or from \$400,000,000 to \$200,000,000, and the enlisted strength from around 100,000 men to 50,000 or 60,000.

Now that the reign of an international peace has been established through the conference treaties, why, asked economical congressmen, is a great navy needed? Members of the

naval and the appropriations committee of the house are insistent that Congress should realize fully upon the benefits to accrue from the conference and save while saving can be done, with safety.

Secretary Denby's plea, voiced before Congress last week that the appropriations should not be cut below \$250,000,000, nor the enlisted strength be cut below 50,000, failed to change these views to any appreciable degree.

Today President Harding summoned members of the house naval affairs committee to the White House for a conference and an exchange of views.

He conveyed the message that the administration does not look with fa-

Princess Mary to Break All Precedences When She Weds a Commoner on Tuesday, Feb. 28

LONDON, Feb. 25.—The ultimate in pageantry, music and ritual will be achieved February 28, when Princess Mary will break all records of the British royal house by marrying a commoner, Viscount Lascelles, whose title is only one by courtesy. He is the heir presumptive to Lord Harewood, his father.

The only daughter of the king and queen of England will be married in historic Westminster Abbey, this being the first time a daughter of the royal house has been wedded there for six centuries.

On the wedding morning the route from Buckingham Palace down the Mall, through the great Admiralty Arch along Whitehall, where most of the government buildings are, past Parliament House and to the Abbey, will be lined with rows of the gorgeous scarlet-coated, bear-skin-hatted British Guards.

People fortunate enough to get tickets to the abbey will see not one, but four processions.

The first will be that of the royal family and representatives of foreign courts. Queen Alexandra, the septuagenarian grandmother of the bride, will be the central figure.

The second procession will be that of the Queen of England, attended by the ladies of her household, and walking with her son, the Duke of York, followed by her other sons, Princes Henry and George. The Prince of Wales will not be present, as he is touring India.

The third procession will be that of Viscount Lascelles, attended by his best man, Sir Victor Mackenzie, who is a captain in the Scots Guards and won the Distinguished Service Order in the war.

After a brief pause the last procession will come. The bride will enter leaning on the arm of her father, the king, and followed by her eight cousins, Mary Cambridge, Lady May Cambridge, Lady Rachel Cavendish—said to be the fiancée of the Prince of Wales—Lady Doris Gordon-Lennox, Lady Mary Thynne, Lady Elizabeth Bowes-Lyon and Lady Diana Bridgeman.

The wedding ceremony will be performed by the Archbishop of Canterbury, the head of the Established Church of England. He will be assisted by a number of bishops.

At the conclusion of the ceremony the bride and bridegroom will be the first to leave the abbey, followed by the bridesmaids and groomsmen, and then by the king and queen and other royals.

The procession will go back to Buckingham Palace.

If the weather is good the princess expects to go to and from the abbey in an open carriage, so the people on the streets can see her.

White and Silver

The wedding will be a white and silver one.

The bride will be attired in a white silk dress, ornamented with silver tissue, and with a long train of similar material.

Her bridesmaids will also wear white silk with silver tissue.

The princess' veil will be the same as her mother's, the queen, wore at her wedding.

It is probable the bridesmaids will not wear veils, but will have silver bandeaus in their hair instead.

The princess will wear plain white kid gloves and white and silver satin slippers, which have been made especially for her in the town of Norwich.

The women guests at the wedding will not wear evening dress, as was at first expected. Because of the chill in the abbey, it has been decided that they shall wear morning dress.

There are comparatively few buildings along the line of march which are not public buildings. However, speculators have already secured all available space and are charging from \$5 to \$25 for seats in windows.

The wedding pair will spend the first part of their honeymoon in England, going to Weston Park, near Shofnal, in Shropshire.

This is the home of Earl and Countess of Bradford, whose daughter, Lady Diana Bridgeman, is to be one of the bridesmaids.

DOESN'T STICK UP HIS HANDS QUICK ENOUGH; FATALLY WOUNDED

NEW YORK, Feb. 25.—There was an addition to the epidemic of payroll holdups today when John V. Smith, vice-president of the Superior Meter company, was waylaid as he was entering the Bush terminal, Brooklyn, and robbed of \$1,500. Smith did not immediately raise his hands when the bandit called "hands up" and was shot and probably fatally wounded. The money was to have been used in paying employees of the Superior Meter company.

The State Road department has many difficult problems to solve and to sound the alarm to the legislature, the Board of Trade has called a conference of good roads men from all over the state to be held at Augustine, March 29 and 30.

Mr. Rolleston says: "I am sure that you are a good road man and are chafing under the delay in constructing a good road in Florida. I hope to get your support in the State Road department."

The meeting of the State Road department will be held in Tallahassee, March 29 and 30. The department is laboring for lack of funds and other things that are retarding the construction of good roads by the state.

It is believed that many of the problems confronting the State Road department can be solved, and the meeting will look for the sentiment of the good roads men as a guide.

The State Road department consists of the following:

State Road tax	\$ 400,000
Gas tax	800,000
Motor tax	500,000
Total	\$1,700,000
Expenses	880,000
Balance	\$ 820,000

The annual road fund will be \$2,538,000. The State Road department will be in session at the State Board of Trade, therefore, is a conference of good roads men to be held in St. Augustine, March 29 and 30, for the purpose of starting a statewide campaign for good roads that will advance Florida in the 20th century.

Wellington Shaw as Mikado's Son in Famous Opera

The important role of Nanki Poo, in the famous comic opera, "The Mikado," which will be played at the Auditorium for two nights, the first time tomorrow evening, will be impersonated by Wellington Shaw, who needs little introduction to Triple Cities audiences as an actor of no mean ability and as a tenor with few equals on the amateur platform today.

Mr. Shaw's part in "The Mikado," that of a wandering minstrel, which disguise he continues throughout the greater part of the play, gives him opportunity for tenor solos and the lead in many interesting situations, which at rehearsals have added greatly to the play which the Music department of the Palmetto club is giving.

Mr. Shaw made a decided hit last year in "The Lost Princess," playing opposite Miss Marian Brewster, as Jack Goose, and his part this year in "The Mikado" is an even greater opportunity for enjoyment of the art of which he is at the head.

Mr. Ploughman as Pish Tush, P. T. Ploughman of Holly Hill, who is spending the winter in the Triple Cities, will have the part of Pish Tush in "The Mikado," a part which gives him much opportunity to show his real worth as an amateur actor.

Mr. Ploughman was in the naval service during the world war and is a former finger-print expert. He expects to leave in the spring for Denver where he will take up his profession again.

Special Training in Leadership of Boys to Be Given

An intensive work in leadership training is to be conducted by the Volusia County Y. M. C. A. beginning March 9. C. R. Loomis, boys' work specialist for the southern region of the international committee, with headquarters in Atlanta, is to spend a week with Secretary Reynolds in securing and training leaders of boys' clubs throughout the country.

The Christian citizenship training program forms the basis of group activities. This program is based on Luke 2:52, and seeks to develop the boy mentally, physically, devotionally and socially into a symmetrical whole. The material is the result of many years of experimentation in boy psychology and is worked out along sound pedagogical lines.

Mr. Loomis, who is a graduate of Yale university, specializing in religious education, is recognized as an expert in boys' work. Conferences are being arranged for Mr. Loomis in several points in the county, where teachers of boys' classes, superintendents of Sunday schools, pastors, members of Y. M. C. A. committees and all others interested in a boys' all-round development will be invited.

The boys' work committees of Rotary and Kiwanis, leaders of Boy Scout troops and those who wish to have the advantage of this specialized course of training, may have a registration with the Y. M. C. A. secretary, Daytona. There is no charge for this course.

A group of young men in each community is being secured for this program and will take up the leadership of boys' clubs under the direction of the Y. M. C. A. secretary as soon as the principles of the program have been mastered.

Rockefeller, to her marriage to Max Osler, Swiss riding master. Miss McCormick is 16 years of age, while her intended husband is reported to be 48. A dispatch from Switzerland several days ago said the wedding would be held at Chicago in May, Osler planning to follow the suggestion of Mr. Rockefeller that he become an American citizen.

Accidents and High Tide on Beach Hinder Races Saturday; Donald Bowles Biggest Winner

Donald Bowles in his fast and smooth running Hudson No. 15 took first honors in all the events in which he entered on the Daytona Beach speedway Saturday afternoon. In the first event it was a close contest between the five entrants with Bowles finishing first, Sparkman in his Rago Special No. 3 in second place, Clyde Harton driving San Juan No. 13 Jr. in third place. Distance was eight miles, time records 8 minutes, 56 seconds.

In the second event Bowles and Sparkman were struggling for leadership when the latter was farged out with a broken wheel and upon re-entering recovered sufficiently to finish in third place, close after Bill Lindley in No. 4, with Bowles rolling in an easy winner. The distance was 20 miles, recorded time, 21 minutes, 42 seconds. Nine cars were entered. On account of the incoming tide it was necessary to combine the scheduled third and fourth events for the eight mile race, six cars entering. Bowles did not participate in this event. Sparkman had things all his own way as Bill Lindley in No. 4 was forced out with oil pressure difficulty. No. 13 Jr. came in second and No. 32 finished third. Time recorded was 8 minutes, 10 seconds.

Walker driving No. 1 experienced serious difficulty early in the event with his car catching on fire near the north turn. It was doused with sand and the car rolled off the course.

As the tide was fast narrowing the race course it was necessary for Bill Endicott to abbreviate the program and he called the wheel changing contest of eight miles as the last number. There were five entries. After the first lap around the course, the cars stopped before the judges' stand and each removed one wheel. No. 15, Bowles' Hudson, arrived first and after 31 seconds was the first one on the remaining three laps. No. 13 Jr. with Clyde Harton was second, Sparkman in No. 3 was third, No. 12 the fourth and No. 31 the fifth to arrive and leave. Bowles finished first position. Sparkman second, Clyde Harton third place. All drivers showed fast and pretty work in this novel feature in the way of races.

The judges were R. L. Seiden and J. R. Miller. Although there was a large number of spectators, the attendance was not up to that of the previous races. The crowd was well handled and the race course kept clear, but the tide proved a handicap.

Mack's Will Hold Big Sale Monday for Alterations

Mack's Shop will start a special sale on Monday morning which will have as its object the clearing away of his present extensive line of high-grade merchandise. In order to make room for the alterations and enlargements of the store.

For the past few weeks or more the workmen have been busily engaged in this store. There has been much talk of a future office which gives much additional room for merchandise and for the efficient handling of extra orders. The business of Mack's Shop has increased by leaps and bounds and it has been found absolutely necessary to have large quarters in which to carry on the growing enterprise. The Mack's office has solved their problem in a most satisfactory manner, and it also adds quite distinctly to the general attractiveness of the store.

The big sale of low-cost alterations which Mack's Shop is clearing away is much of the merchandise which seems to retard the work of the alterations and pattern at the present time. Mack's Shop will certainly be able to carry on the growing enterprise with a clear conscience in the short time possible. The time quality

Thomas Walsh of Sea Cliff Died Saturday

Thomas Walsh of Sea Cliff, Long Island, N. Y., died Saturday afternoon at one of the local hospitals, after a brief illness.

The body has been placed in charge of the Baggett-Wetherby company, undertakers, and the funeral services will be held Monday morning at 9:00 o'clock, at St. Paul's Catholic church, corner Palmetto and Myrtle avenues. Father O'Boyle will have charge of the service. Interment to be made in Pinewood cemetery. The funeral arrangements were made by Miss Julia Walsh.

Kentucky Club is Entertained at Luncheon-Cards

The Kentucky club has been continuously in the limelight this season, in regard to the numerous brilliant social functions it has sponsored. Monday evening's event fully maintained the reputation of the Bluegrass State for lavish hospitality and gay festivity. Some blades of bluegrass and a fleet thoroughbred or two grazing contentedly thereon would have sufficed to produce the illusion that the members of the club were back on their native heath, rather than sojourners on the sands of Florida—for the gallant men were there, the fair women were much in evidence, and the glad hand and warm heart cheered and charmed.

Mrs. James A. Leach, of Cynthiana; Mrs. Matt Varney, of Georgetown; and Mrs. John Coleman, of Louisville, were the attractive hostesses, and a powerful combination they form when it comes to skill and efficiency in the line of entertaining, for they are wives of prosperous, retired farmers. This fact alone accounts for the delicious and elaborate luncheon served "a la Kentucky."

As the expectant guests arrived at 214 Hollywood avenue, the home of Mr. and Mrs. James A. Leach, they were seated at small tables, covered with exquisite hand-embroidered linens, the centerpiece of each table being a vase of the lovely hibiscus. Promptly at 7:30 the tempting menu was served. While all the courses would have delighted the faded appetite of the most fastidious epicure, perhaps the most pleasing to the discriminating taste of the pampered Kentuckians was the toothsome old country ham, sugar-cured, hickory-smoked, of the vintage of 1913, shipped direct from the "land that flows with milk and honey" and served with all the conventional accessories. A morsel of that dished de luxe at once heightened the eye and moistened the lip in pleasurable anticipation.

And, oh, those piping hot rolls, adorned with the golden butter, so light that they fairly melted in the mouth. But words are impotent to do the subject justice. One must partake in order to appreciate.

After the serving of the beautiful spread, the tables were cleared for cards. Five hundred was the game Mrs. A. A. Ferguson of Mayville, captured the first prize, and Mr. J. A. Leach, the second.

The decorations carried out the patriotic colors, anticipating the natal day of the father of our country. Flags and flowers were used in great profusion in the living room, dining room and sun parlor. Ten pennants peeped out from the corners from the walls, the blue and red and white. The table decorations were decorated with the national colors, all bending to the entire scene a glow and riot of brilliant hues.

A short hymn, a prayer followed by the singing of which the recitation of Mrs. J. F. Powell, comprising a series of accepted, and Mrs. Anne Mayes Griffith, secretary of the S. C. F. C., sang hymns for expression.

The wearing apparel for women which is offered at Mack's is of a high class and is new and up-to-date.

Senator Lincoln Hallie of DeLand, President Stetson University, Forum Speaker

Sig Hangdahl Has Speedster Here for World Record Try

Sig Hangdahl, world champion track driver, arrived in Daytona Saturday afternoon with his speedster for the purpose of trying to shatter the official world record made by Tommy Milton several years ago, at which time Milton made better than 125 miles per hour.

Hangdahl drives a specially constructed Wisconsin machine, built under his personal supervision, of special material in order to stand the terrific strain put upon the machinery in the attempt to annihilate time and space.

The car and driver arrived late Saturday afternoon and today will be taken out on the beach to be tested for the purpose of trying to shatter the official world record made by Tommy Milton several years ago, at which time Milton made better than 125 miles per hour.

The attempt for a new record was likely to be made some time Monday and will be under the supervision of competent timers and under regulations of the International Motor Contest association.

Some time ago Hangdahl drove the huge racer at the rate of 145 miles per hour on Pablo Beach and if that time can be made at Pablo, then it is a sure thing that a new record will be made here, for Pablo Beach can never touch the world famous speedway at the doors of the Triple Cities.

A big crowd will be on hand to see the racer and driver make the attempt.

"Springtime" Will Be Given in March By Palmetto Club

"Springtime," a fantasy of mirth and music, will be given under auspices of the Palmetto club on March 23 and 24 at the Auditorium, according to an announcement made today.

The production, which will be staged under personal direction of a professional producer, will be given for the benefit of the public welfare department.

The leading musical and dramatic talent in the Triple Cities is to appear in the various roles and in the dances and choruses.

"Springtime" is a musical production of merit. The libretto, music, costumes, scenic equipment, etc., are the property of John B. Rehearsals are expected to begin on Tuesday evening at 5 o'clock and Wednesday afternoon of this week at the Palmetto club house.

GUN CLUB SHOOT

At the regular Saturday afternoon shoot at the gun club, Roy Barker carried off the honors, being high gun for the afternoon. Barker and C. C. King tied with 95 kills each, but on the shoot-off Barker killed 25 straight while King missed one, thereby losing the trophy to Mr. Barker by one bird.

Mr. Barker is a Hoosier, and a trap shot of promising ability. He is a nephew of J. B. Rock, of the Vitagraph while here.

Mr. and Mrs. King left for their home in Memphis on the afternoon train having delayed their return trip until this contest had been decided.

Social Events of the Week at New Oracola Gardens

The past week has been a very busy one for the Oracola Gardens Inn on the Dixie Highway.

On Wednesday, February 22, there was held the first Washington ball, a very delightful affair.

The spacious lounge was cleared of the rug and furniture and turned into a most effective ballroom, the walls covered with bamboo and the porch all enclosed in bamboo, and with the Japanese lanterns strung about the ground made a charming setting for a most delightful first ball.

The supper tables were decorated with masses of daffodils and jonquills and huge palm-tree palms were used for wall decorations. The lanterns were used all over the ballroom and dining room, and together with serpentine streamers hung by the guests over wires strung for the purpose and the caps given to the guests made a gay and artistic setting for the supper. The menu was most unique, every article having a name connected with George Washington in some way.

The gross proceeds of the ball were given to the charity receiving the most votes, and the Daytona Normal and Industrial Institute won, having more than twice as many votes as any other charity.

There have been many new arrivals during the last week, among them being Mr. and Mrs. Raymond G. Mowry, Providence, R. I.; Mr. and Mrs. Martin A. Driscoll, Brooklyn, N. Y.; Mr. and Mrs. J. Willson Lawrence, Toronto, Canada; Mrs. H. T. Willoughby, Philadelphia; William A. Estes, New York; Mr. and Mrs. Pressley Island, Miss Sara Bisland, Bronxville, N. Y.

Mr. and Mrs. Holland Celebrate Anniversary Wedding 50 Years Ago

About thirty friends of Dr. and Mrs. S. Z. Holland of Earl street, Seabreeze, gathered at their residence Thursday evening to assist them in celebrating their golden wedding.

The Crandall orchestra, assisted by artists from Kentucky, furnished the music for the dancing and accompanied the soloists of the evening. Mr. Parent contributed some French songs and Mrs. Holland delighted her guests with a French recitation.

Many of the guests contributed to the pleasure of the evening, and one of the young gentlemen was the recipient of a huge bouquet of orange blossoms in acknowledgement of his share in the evening's entertainment. Several features were especially applauded, notably Mr. Paine's violin solos and Mrs. Froenick's skirt dances.

Dancing commenced in regulation style with the grand march, led by the genial doctor and his charming wife, and all too soon came the end of the perfect day.

Nazimova Coming to Auditorium in "The Doll's House"

When Henrik Ibsen wrote the words "The sound of a door is heard from below," as the finishing touch to his now famous drama, "A Doll's House," he made a phrase the echo of which has been heard round the world and laid the corner-stone of an idea that has developed in the last forty-odd years, into the present day status of woman in the home, in the business world, in politics and in the nation's life in general.

For several years the startling realistic portrayal of Nora, the doll-wife, as presented on the stage by Nazimova, the noted Russian actress, has made this remarkable character more and more familiar to the American public. Nazimova has won her greatest distinction in this role, and no one ever has given a more clear-cut impression than she of the petted and spoiled young wife, dependent on her husband's every whim and wish till the great crisis comes, and she suddenly awakens to the right of every woman to create her own destiny, to develop her own personality, and to live her own life along lines her conscience may dictate.

And now Nazimova has transferred this characterization to the motion picture film, and her screen version of this great Ibsen drama, produced by her own company for United Artists corporation, will be seen Saturday at the Auditorium.

So consummate an actress is Nazimova and so perfect her understanding and interpretation of the role of the doll-wife's subjection and ultimate revolt against the standards under which woman existed at the time Ibsen wrote "A Doll's House," that the character has lost none of its realism, none of its appealing qualities, in its transfer to the film.

Nazimova and her director, Charles Bryant, have adhered exceptionally close to the drama as presented on the speaking stage, and every detail of characterization of the two outstanding characters, Helmer Torvald and Nora, the doll-wife, is kept intact through the superb artistry of Nazimova and her leading support, Alan Hale.

Motor Club Will Function Shortly; Over 100 Members

Membership signatures in the Daytona Motor club have well exceeded the hundred mark and the work of securing 200 is progressing as rapidly as is possible under existing conditions. The complete list will be published soon. When two hundred members have enrolled, more definite steps will be taken to enable the club to fully function. A membership of 1,000 is the ultimate goal.

Already resolutions have been prepared looking to the prevention of legislation inimical to motorists; the repairing of sections of poor roads leading to the north and the maintenance of best travel conditions along routes 2 and 4. These will be presented to the proper authorities and all the other motor clubs throughout the country will be asked to cooperate in sending similar resolutions. Thus the Daytona Motor club, although not having begun its committee work, has taken the lead in matters which will not only give this vicinity prominence, but also will be of great benefit to motorists who contemplate the return journey north.

A number of winter residents in Daytona and visitors for the first winter season, representing a number of states, have taken membership with the Daytona Motor club. This affords them membership in every other similar club in the country. They will have on their cars the emblem of the Daytona Motor club and will be provided with every available assistance in making their return home a real pleasure.

A meeting of the officers and directors of the local club will be held in the near future to map out work and to select the personnel of the eight departments. The membership to date is representative of almost every line of endeavor in Daytona and anyone having the best interests of good roads in mind will be welcomed to membership.

Mr. Brannan, manager of the club, is sending out membership cards to all who have qualified to receive them, also a bulletin and return card asking members to make vital suggestions which will receive careful consideration. Messrs. George N. Rigby and John A. Reilly, members at Ormond, have asked Mr. Brannan to come to Ormond and explain the objects of the club to residents of that city.

Chicago Sextette Attraction Here on Next Tuesday

Competent critics have spoken of the Chicago Ladies' Sextette as offering a "personality program," and certainly those who hear the six charming young artists of that organization at the Auditorium next Tuesday will agree that personality is an attribute to each member of this distinctive organization.

There is the happy talent which combines a fine instrumental art with pleasing and well-trained voices and to the orchestral portion of an unusual program is added a beautiful blending of warm vocal color. Violins, cello, double-bass and piano are the orchestral instruments to which these six young women have devoted their artistic lives and the programs offered are worthy of the high musical standard of the great city whose name they bear, which gave Theodore Thomas his great chance as conductor, and Mary Garden hers as operatic director.

In these programs is a mixture of instrumental and vocal music in which popular songs and music, classic stringed quartets and arias, are intermingled together with old time favorites. While a high musical standard is maintained there is a fine proportion of that which will appeal as well to the one who "doesn't know music but does know what he likes" as well as to the student of music. Readings and impersonations vary the offering in which there is not a dull moment and those who attend may be assured by the verdict of the many delighted audiences of past successful seasons, of a program of true dramatic and musical worth.

WILBUR BY THE SEA

A large party enjoyed a trip on Spruce creek this week and the people were unanimous that Spruce creek boats even the Tomoka river for the wonderful sights and nature's beauties. The party encountered 14 large sized alligators and they also saw a number of eagles on the way. Spruce creek is now known as being one of the famous trips on the peninsula, and there will be another one of these trips this coming week.

Elizabeth Rodgers and Mother Hostesses at Series of Parties

A series of receptions were given by Mrs. John A. Rogers and her mother, Mrs. Elizabeth Baird, at the former's home on South Ridgewood avenue Friday and Saturday afternoons.

The rooms and sun porch were decorated very tastefully in palms and ferns, with lovely bouquets of garden flowers of various colors, which lent beauty and brilliancy to the home. Mrs. H. R. Longdon, assisted by several ladies, poured tea, while Miss Margaret Oliver presided at the punch bowl.

The afternoons were most delightfully spent, and the guests appreciated the hospitality of the hostesses to the fullest extent.

NAVY FURNISHES GOBS WITH MOVIE THRILLS
WASHINGTON, Feb. 25.—Owing to the peculiar needs of the naval service the navy department has established and today maintains a regular motion picture exchange, which in size and the field of activity is probably second to none.
This exchange has operated at the New York navy yard for the past year and is handling between 1,700 and 2,500 programs of the latest pictures.
It is furnishing regular programs to the Atlantic fleet, Atlantic coast stations, West Indian and European stations and to some extent the Pacific coast establishment. During the present year it is expected that this service can be extended to the Pacific and Asiatic stations. Subexchanges have been organized in various naval districts, including the stations in Haiti and Santo Domingo.
Motion picture machines are now part of the engineering allowance for the navy, while regular courses in the operation of the machines and films are part of the naval training.

POOR MEXICANS OF COLORADO TO GO HOME
15,000 STRANDED WORKERS, SOME UNPAID, WILL BE SENT ACROSS BORDER
DENVER, Feb. 27.—Despite assurances from Governor O. H. Shoup that "everything possible would be done to alleviate their condition," early withdrawal of the 15,000 odd Mexican laborers now in Colorado and their return to the motherland below the Rio Grande is predicted by Vincente Rendon Quijano, Mexican consul in Denver, following his investigation of the impoverished condition of thousands of his fellow countrymen as a result of economic depression.
Senor Quijano recently appealed to the Mexico City government for financial aid in transporting Mexican laborers in Colorado to their native

CITY DOLLAR WORTH MORE THAN FARMER'S
COLUMBUS, Feb. 25.—Deflation has injured every line of business, but unequal deflation has hit the farmer hardest of all, declared L. J. Taber, Barnesville, state director of agriculture. "The farmer's dollar has a buying power of 98 to 101, as compared with the pre-war dollar, while the dollar of the city business man has a buying power of 115 as compared to his pre-war dollar."
"Nothing radical will take place in agriculture, but it will slowly turn to a better condition. There is no patent medicine that will make industry feel better overnight. The road out is the way of economy, thrift, faith and work."
"Export trade has increased in foodstuffs, although the value of goods exported has fallen off. The greater tonnage has been absorbed by the decline in prices, and there is not the surplus stock in this country that is generally supposed. With this surplus absorbed, it covers us in debt for the farmer, but it will not come in a single day."
Director Taber declared that, "given a square deal and fair prices,

land, to be repatriated and allowed average of their own for cultivation.
Consul Quijano declared that his investigation, especially in the best centers of the southern and eastern sections of the state, convinced him of the advisability of the Mexican laborers returning to the homeland and declared that they will be welcomed back.
"The condition of Mexicans in Colorado is critical," Consul Quijano declared. "In many cases they have not been fully paid for their work owing to lack of funds of the farmers. This is one of the chief reasons why Mexicans are destitute this winter."
"The best field workers are the greatest sufferers, and it is probable that they will be taken back to Mexico soon."
Consul Quijano intimated that the Mexican government will endeavor to secure permission from the United States government to run as many trains into this country as will be necessary to accommodate the returning Mexicans.
He also said that Mexico is planning new legislation to prevent the emigration of Mexican laborers.

POLICE HEAD SINGS PAEAN TO NEW YORK
NEW YORK, Feb. 25.—Richard E. Enright, hitherto supposed to be merely a police commissioner, today revealed himself as the poet of the nation's greatest metropolis.
"Of New York he sings in such glowing terms as these:
"This is the fairest, proudest city in the world."
"For the first time since this has been a record of things, there is a city that follows the divine plan—New York."
"We are working out the great problem of the brotherhood of man as it has never been worked out before."
"The city might well bear on its escutcheon the words:
"New York is the cheapest and sweetest city that ever stood beneath the sun."
"Proudly we stand before the world."

DAILY HILL

HOLLY HILL, Feb. 25.—Mrs. A. E. Carter entertained a number of friends last Thursday afternoon at an informal get-together meeting. Several games of 500 were played and a delicious light refreshment course was served. The hostess was complimented very much on her skillful arrangement.

On Thursday afternoon Mrs. John Small entertained a number of friends in honor of Miss Cora Groover, of Gloucester, Mass. Several tables of that old-fashioned exciting game of Piquet were played after which refreshments were served. Miss Groover delighted the folks present with a number of plane pieces.

The younger set of Holly Hill, not to be outdone by the grown folks in the line of social activities, had an enjoyable time on Wednesday evening at a real old-time fish fry held at the Parker home in North Holly Hill. After getting their fill of fried fish the young folks amused themselves with several games and the early hours of the morning after saw them all safely in their own homes.

Mrs. Mallory and her father of Detroit, Mich., arrived late Wednesday afternoon and will stay for the remainder of the season. They have as their guests on their commodious homestead, Mrs. McDonald and daughter.

In the near future Mrs. Jessie Martin will give a buffet lunch for Miss Cora Groover, of Gloucester, Mass. An enjoyable time is anticipated.

Mr. and Mrs. N. S. May left this week for New Smyrna and will be gone several days on a combined business and pleasure trip.

O. G. Sage, of Washington Ave., Holly Hill is renovating his home and

when alterations have been completed will be able to claim one of the most up-to-date homes in this vicinity.

Mr. and Mrs. Herbert Moore left Saturday morning for a short visit to Crescent City. They expect to be gone about a week.

The C. E. society met at the usual hour Wednesday evening and were happily surprised to see the fine new piano all placed and ready for use. The society has been working for the piano for some time and through the faithful efforts of our former president, Mrs. E. Peterson, the instrument was secured much sooner than expected. A vote of thanks was given Mrs. Peterson, also to Miss Alta Sage, secretary for their service.

The C. E. society will give a waffle supper in the church parlors in the near future at which time a large crowd is expected.

The school building is now being wired so that electric lights can be used as soon as the power is furnished to the Holly Hill community.

Mr. and Mrs. Pople are receiving the congratulations of many friends on the safe arrival of a strapping big son who reached Holly Hill on Monday, February 20th.

ONE MAN GLAD HE DID NOT USE WRIST WATCH

LAWRENCE, Mass., Feb. 25.—Roland J. Ferguson of this city is probably congratulating himself that he did not become addicted to a wrist watch. Ferguson was held up and robbed by three youthful bandits, who fired several shots at him. One of the bullets rendered his watch, which he carried in a vest pocket, a total loss.

The highwaymen took \$50 from one of Ferguson's pockets and overlooked \$250 in another pocket. The watch was so badly shattered by a bullet that they threw it one side.

A Gigantic Value-Giving Event

Daytona is now going to experience the most astounding bargain thrills it ever knew. We open our doors Monday morning, Feb. 27th, on the most amazing sale of fine quality apparel for women that the Halifax Country ever witnessed.

The workmen have been busy in our store making room for the rapidly expanding business which value-giving has brought to us. It simply has become a case where we are totally unable to handle all our customers without additional room.

We find it absolutely necessary to move our present stock and allow the carpenters to complete

their work. We have therefore cut down to the very lowest figures ever known in our profits! The prices you see in our merchandise are really laughably low prices at all—merely give-away figures.

And yet this merchandise represents the latest spring styles in exclusive and fashionable apparel for women.

We can't help ourselves. We must move that will bring you to our store—done it.
